

HTML FORM ACTIVITY

Instructions:

1. Create an HTML file named htmlform_exercise.html.
2. Write the HTML code to practice different elements of HTML Form.
3. Use inline CSS to style the body and form.
4. Use a <div> tag to design form elements.
5. Modify the CSS as per requirements.

HTML FORM

First name:

Last name:

Password:

Courses

☐ HTML

☐ CSS

☐ JavaScript

Hobbies

☐ Singing

☐ Football

☐ Web Development

CODE :-

```
<html>
<head>
  <title>HTML Forms</title>
</head>
<style>
  body {
    display: flexbox;
  }
</style>
```

```

        justify-content: center;
        /* Center horizontally */
        align-items: center;
        /* Center vertically */
        height: 100vh;
        /* Full viewport height */
        margin: 0;
        /* Remove default margin */
        font-family: Arial, sans-serif;
        background-color: #f0f0f0;
        /* Optional background color */
    }

    form {
        width: 600px;
        margin: auto;
        margin-top: 10px;
        margin-bottom: 10px;
        padding: 20px;
        border: 1px solid #ccc;
        border-radius: 10px;
        background-color: #fff;
        box-shadow: 0 4px 8px rgba(0, 0, 0, 0.2);
        /* Optional shadow for better design */
    }
